Season's Eatings Pumpkin Gingerbread Trifle

Ingredients

- | | |
|--|---|
| 2 (14-ounce) packages gingerbread mix | 1/3 teaspoon ground cardamom (or cinnamon) |
| 1 (5.1-ounce) box cook-and-serve vanilla pudding mix | 1 (12-ounce) container frozen whipped topping |
| 1 (30-ounce) can pumpkin pie filling | 1/2 cup gingersnaps, optional |
| 1/2 cup packed brown sugar | |

Directions

Bake the gingerbread according to the package directions; cool completely. Meanwhile, prepare the pudding and set aside to cool. Stir the pumpkin pie filling, sugar, and cardamom into the pudding. Crumble one batch of gingerbread into the bottom of a large bowl. Pour half of the pudding mixture over the gingerbread, then add a layer of whipped topping. Repeat with the remaining gingerbread, pudding, and whipped topping. Sprinkle the top with crushed gingersnaps, if desired. Refrigerate overnight. Trifle can be layered in a punch bowl.

Fall 2012

UPGRADE YOUR HEATING SYSTEM AND SAVE!

Do you know the age of your current heating system? The latest boilers and furnaces can be up to 30% more efficient than models 15 years old or older. New heating technology could save you as much as a full tank of oil each year. This translates into greater savings and fewer fuel deliveries required during the winter. A heating system that runs at peak efficiency can also help our environment by limiting emissions and preventing damage such as oil spills or leaks.

Call us today at (215) 234-4351 to schedule an appointment to receive an estimate to install new equipment or replace your existing equipment and you will receive \$200 off the cost of your new installation.

About Us

Established in 1890, John R. Young and Co. is one of the oldest family owned and operated companies serving Montgomery, Berks, Bucks, Lehigh, and Chester Counties. We are a diversified company with three divisions: Young's Lubricants, Young's Tire and Automotive, and Young's Home Comfort. At Young's Home Comfort, we are committed to providing reliable delivery service of heating oil, diesel fuel, and kerosene, and providing superior heating and cooling service and installations.

Our company has always exhibited great dexterity in adapting to shifting technologies and markets, positioning ourselves to offer customers the products and services they need, including a variety of fuel options, 24 Hour Emergency Service, along with payment plan options. In addition, we provide heating and cooling equipment installations, solar installations, and Home Comfort Plans to provide peace of mind.

\$200 OFF

RECEIVE \$200 OFF ANY HEATING, COOLING, OR WATER CONDITIONING INSTALLATION.

Protect Your Heating System This Winter

We offer three levels of comprehensive service plan coverage through our Comfort Plan, Ultimate Comfort Plan, and Premium Comfort Plan. Enroll in one of these plans today and benefit from many services crucial to keeping your heating system operating efficiently this heating season and for years to come.

ANNUAL TUNE-UP:

We will conduct a safety inspection during your annual heating system tune-up to ensure that your system is operating safely and efficiently. This service will help lower your annual fuel costs and extend the life of your heating system.

EMERGENCY SERVICE:

Rest assured if your system needs unplanned repair that we will be there for you 24/7.

EXTENSIVE PARTS COVERAGE:

Depending on which level of service plan coverage you choose, our plans include many commonly replaced parts, service, and labor.

Call our office today at (215) 234-4351 to sign up for any of our valuable comfort plans.

Five Easy Ways to Save on Energy Costs

- 1** Make sure your home is properly insulated by blocking any air leaks around your windows and doors. This can save you 10% or more on energy costs annually!
- 2** Clean or replace the air filters in your heating and cooling systems. A clean furnace filter can reduce your heating bill by up to 15% and will improve your home's air quality!
- 3** According to Rocky Mountain Institute® (RMI), you can save up to \$180 a year on your energy costs by installing a programmable thermostat..
- 4** Upgrade to an ENERGY STAR labeled heating or cooling system. These products limit greenhouse gas emissions and use approximately 20% to 30% less energy than systems that do not earn ENERGY STAR approval.
- 5** Reduce your use of hot water and upgrade your water heater. Replacing your existing water heater with a new, more efficient one can save you about 4% to 9% on your water heating bills!

Improve the Air You Breathe

Poor air quality can impact your home comfort and, in some cases, your health. We at Young's Home Comfort are committed to offering products that will improve the air quality in your home.

How can you improve your home's air quality?

- Upgrade your heating system and air conditioning systems' air filters
- Clean your HVAC system's ducts regularly
- Install an energy-efficient air filtration system

We sell, install, and maintain air purification systems that not only eliminate breathable pollen, mold, and bacteria particles, but also safely destroy household odors and chemical vapors.

Featured Product

American Standard® AccuClean™ Whole-Home Air Filtration System

The American Standard® AccuClean™ Whole-Home Air Filtration System removes up to 99.98% of allergens from filtered air. These microscopic particles pose the highest health risk, as they remain airborne for long periods of time, making the installation of this air filtration system valuable to your home. The AccuClean™ system has the highest clean air delivery rate (CADR) in the industry and an impressive 10 year warranty on its power-pack, as well as a five year warranty on all other parts within the system.

Are you interested in installing an American Standard® AccuClean™ Whole-Home Air Filtration System to improve your home comfort? We're now offering "90 Days Same as Cash" on all installations of this system!

Call us today at (215) 234-4351 for more information about the indoor air quality products and services we offer.
